

*Announcing  
a work in progress*

# Gastrin

in the New Millennium

*Edited by Juanita L. Merchant,  
Alison M.J. Buchan, and  
Timothy C. Wang*

*Managing Editor, Lori Ennis*

The Foreword to the book  
has been prepared  
by Tadataka Yamada.

**T** HIS COMMEMORATIVE and comprehensive book includes the latest concepts regarding the physiology and molecular biology of gastrin and its downstream targets.

This book has been made possible due to the generous support of *Eisai Inc.* / *Janssen Pharmaceutica* in the form of an educational grant.

**This book will be available for purchase  
in mid-May, 2004.**

*See reverse side for details about contents* ►

# Contents for *Gastrin in the New Millennium*

*The History of Gastrin*, Graham Dockray

## **SECTION I. Gastrin Processing in Health and Disease**

*Progastrin Processing Defines the Molecular Forms of Gastrin*, Jens Rehfeld

*Control of Progastrin Processing: Mechanisms and Significance*, Graham Dockray

*Gastrin Processing Patterns: Ontogeny, Phylogeny and Pathology*, Arthur Shulkes

## **SECTION II. Regulation of Gastrin Expression, Receptor Binding and Cell Signaling**

*Does the Brain Regulate Gastrin Release?* Yvette Taché

*Regulation of Human G Cell Function*, Alison Buchan

*Inducible Regulation of Gastrin Gene Expression*,  
Juanita Merchant

*Structure/Function of the CCK-B1 Gastrin Receptor*,  
Mark R. Hellmich

*Quantitative Evaluation of CCK-B/Gastrin Receptor  
Regulation Using an Arrestin/Green Fluorescent Protein  
Biosensor*, Michael Shetzline

*Molecular Mechanisms for the Growth Factor Action of  
Gastrin*, Andrea Todisco

*IRS/PI Kinase Activation by Gastrin*, Catherine Seva

## **SECTION III. Understanding Downstream Targets and Actions of Gastrin**

*Downstream Targets: Regulation by Gastrin*, Rod Dimaline

*Molecular Mechanisms of Gastrin-Dependent Chromogranin  
A Gene Regulation*, Michael Höcker

*Gastrin as a Physiological Regulator of Gastric Acid Secretion*,  
Gordon Ohning and Vincent Wu

*ECL Cells in a Physiological Context*, Rolf Håkanson

*Gastrin Effects on Isolated ECL Cells*, Christian Prinz

*Gastrin-Induced Intracellular Signaling in the Production of  
Histamine, Reg-Protein and Uroguanylin in EC Cells*,  
Tsutomu Chiba

## **SECTION IV. Transgenic Models**

*Regulation of Acid Secretion: What We Learned from  
Knockout Mice*, Susumu Okabe

*CCK-B Receptor-Deficient Mice: Effects on Target Cells*,  
Duan Chen

*Gastrin Deficient Mice*, Linda Samuelson

*Gastrin Transgenes and Gastric Cancer*, Tim Wang

## **SECTION V. Gastrin and *Helicobacter Pylori***

*The Gastrin Link in H. pylori Infection*, Ian Beales

*Regulation of Gastrin Secretion by Helicobacter pylori*,  
George Sachs

*Proton Pump Inhibitors and H. pylori*, Rudolf Arnold

*Epidemiology of H. pylori and Adenocarcinoma*,  
Kenneth McColl

## **SECTION VI. Gastrin and Cancer**

*Gastrins, Gastrin Receptors and Colon Cancer*,  
Graham Baldwin

*The Role of Gastrins in Colon Carcinogenesis*,  
Pomila Singh

*The Role of Gastrin in the Adenoma-Carcinoma Sequence  
in the Colon*, Susan Watson

*Gastrinomas: Recent Advances and Insights into  
Consequences of Chronic Hypergastrinemia in Man*,  
Robert Jensen
